Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 1-4 in the reply filed on 12/29/04 is acknowledged.

Claims 5-11 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected claims, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 12/29/04.

Claim Rejections - 35 USC § 102

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Tanabe et al ('230).

In reference to claim 1, Tanabe et al teaches a group III nitride compound semiconductor light-emitting device comprising:

A semiconductor laminate portion (12) containing a light-emitting layer (11) (Col.32, lines: 1-10 and Fig. 14); and

A groove (18) formed in the semiconductor laminate portion (12) so as to extend from a light emission observation surface of the semiconductor laminate portion to reach at least the light emitting layer (11) (Fig. 14).

In reference to claim 2, Tanabe et al teaches wherein the groove is distributed equally in the light emission observation surface (Fig. 14 (18)).

In reference to claim 3, Tanabe et al teaches wherein the groove is formed by etching (Col.33, lines: 5-12).

In reference to claim 4, Tanabe et al teaches wherein an n-type seat electrode-forming surface is provided at a level equal to a bottom of the groove (Fig. 14 (9- the n-type electrode is at the bottom of a second groove)).
